Acts of Congress applying to new vessels 236
Alabama, coals of—Haines 118
Aldrich, W. S.—Spirally Welded Tubes 207
Alfonso XIII, merchant steamer 168
Alliance, screw propeller data 127
speed trials, progressive 127
Angularity of connecting rod, influence of 271
Arequipa, merchant steamer 363
Argus, description 356
Ariete, Thornycroft boiler of 182
weight of machinery 183
Atlanta, law authorizing construction 236
measured mile trials 353
space occupied by machinery 249

Baird, G. W.—Duty and Capacity tests of High Service Pumping Engines, Washington, D. C.* 41
Evaporators* 285
following current 40
preservation of shafts 364
Ballymena, quadruple-expansion engine of 81
Baltimore, boilers 340
contract trial 337
description 337
engines 338
law authorizing construction 236
performance 343
screw propellers 340
space occupied by machinery 249
speed, method of determining 346
Barge, steam, of Comdt. New York Navy-Yard.—
boiler, description 5
engine, dimensions 3
hull, dimensions 2
progressive trials 1–41
screw, dimensions 5
Basilisk, steam trials 357

Beagle, steam trials 357
Bennington, law authorizing construction 243
Bieg, F. C.—Data of Some Quadruple Expansion Engines 77
Development of the Marine Engine (trans) 151
Forced Draft, Comparison of the Klotz and the Anderson & McKinnell Systems 333
Boiler, Corliss, dimensions 301
tests 299
plate, tests 132
Thornycroft of the *Ariete* 182
Boston, law authorizing construction 236
measured mile trials 252, 354
space occupied by machinery 249
Bromo, quadruple expansion engine of 78
Buenos Aires 78
Busley, Carl, development of the marine engine 151

Canadian Pacific Railway Steamers 363
Canaga, A. B., graphic determination of crank effort 271
Castings, steel—Hollis* 193
expense attending use of in certain cases 205
manufacture of open-hearth—Hall 185
mixtures for 191, 193
tensile tests and chemical analysis 191, 206
CASUALTIES AND REPAIRS.—
Break-down of air pump gear—Kearney 248
Dressing up crank shaft pillow blocks—Leonard 174
Examination of injection valve of *Lancaster*—Gage 88
Preservation of shafts 364
Slow combustion of iron 364
Cécille, steam trial 180
Charleston boilers 315
description 310
engines 311
law authorizing construction 237
screw propellers 314
trial, first official 250
second official 310
" data 324
Chicago, law authorizing construction 236
measured mile trials 354
space occupied by machinery 249
City of New York, description 166
City of Paris, description 166
time of passage 167, 270
City of Venice, quadruple-expansion engine of 79
Coal consumption per I. H. P., *Meteor*, trip ex. engines 235

Coals of Alabama.—Haines 118
Pacific Coast, notes on—Roelker 69
Chilian 70
Nanaimo 72
Sandy Point 71
Wellington 71
Coast Defense Vessel, description 176
law authorizing construction 243
Columbia, description 168, 361
time of passage 368
Compressed Air System of Forced Draft*—Kutz 330
Concord, law authorizing construction 243
Copper pipes, strength of brazed 208
Corliss boilers, test of—Isherwood 299
County of York, quadruple-expansion engine of 79
Cowles, William, "emergency power" in ships of war 216
Cruisers, belted, Spanish 360
first class, protected, British 359
2,000-ton 253, 351
3,000-ton 349

Daphne, steam trials 86
Draft, forced, compressed air system 330
methods of applying 155
Dolphin, law authorizing construction 236

Emergency power in ships of war—Cowles 216
Evaporators*—Baird 285
test 291
weight 293
Examinations, Engr. Corps, U. S. N., regulations 93
Expansion engines, diameter of cylinders for successive—Gow 147
Falls of Inversnaid, quadruple-expansion engine of 80
Feed-water heaters, when used to advantage 158
Following wave—Isherwood 20
Mattice 34
Forbin, Steam trials 180, 360
Forced draft, comparison of compressed air system with that of supplying air by blower 332
compressed air system* 330
methods of applying 155
Friesland, merchant steamer 363

Gage, Howard—Examination of injection valve of *Lancaster** 88
Gow, John L.—Formulæ for the diameter of cylinders of successive expansion engines 147
Grace Darling, quadruple-expansion engine of 77
